

Disclaimer: This algorithm has been developed for MD Anderson using a multidisciplinary approach considering circumstances particular to MD Anderson's specific patient population, services and structure, and clinical information. This is not intended to replace the independent medical or professional judgment of physicians or other health care providers in the context of individual clinical circumstances to determine a patient's care. This algorithm should not be used to treat pregnant women.

**Note:** Screening is only intended for asymptomatic individuals. Patient must be a candidate for and is willing to undergo curative treatment.

<sup>1</sup>Patients should monitor their skin for any changes and seek prompt medical evaluation of any lesions concerning for skin cancer

## DEVELOPMENT CREDITS

This screening algorithm is based on majority expert opinion of the Skin Screening work group at the University of Texas MD Anderson Cancer Center. It was developed using a multidisciplinary approach that included input from the following:

Therese Bevers MD (Cancer Prevention)  
Powel Brown, MD, PHD (Cancer Prevention)  
Susan Chon, MD (Dermatology)  
Ana Ciurea, MD (Dermatology)  
Olga N. Fleckenstein  
Saira J. George, MD (Dermatology)  
Ernest Hawk, MD, MPH (Cancer Prevention)  
Kelly Nelson, MD (Dermatology)  
Omar Pacha, MD (Dermatology)  
Anisha Patel, MD (Dermatology)
